

MINERAL PRODUCT COMPANY

Nador - Maroc

Mr. Director General,

We are heading towards you with a great honor to make you a presentation of our company.

Mineral product company (MPC), is a national company, established in 2010, manufacturer of basic mineral products, bentonite, diatomite earth, perlite and mineral oxides as well as marketing chemicals products.

Mineral product company (MPC) is also specialized in the preparation of special products for different types of industry:

- Products for preparing slips intended for the ceramic industry in general.
- Floculants intended for the industry specialized in water treatment.
- Additives for feeding livestock and poultry.
- Additives for the oil and food industry.

Our strength is based on the experience that we have been able to acquire, day by day thanks to the trust that has shown us all our customers and suppliers during the last years.

. All these efforts have enabled us to gain a high reputation and to be present on the local market, in our range of products.

Our strength is also based on the fact that all our production and distribution are done locally, and we have our own resources for technical assistance and logistics for procurement, which also allow us to be more competitive.

. Due to these facts, it would be a great pleasure and honor to be able to present our products and experience to your collaborators in order to jointly develop suitable products in line with the needs of your industry.

We would like to thank you in advance and would like to take this opportunity to convey our sincere greetings.
